

Hi, my name is Chester Polak III. My wife and I bought the lot at 210 Country Club Lane and built our forever home for us and our two children, ages 3.5 and 2 months. You may know us as the ones who had the gate shut down. Sorry about that!

We are originally from Florida, but as I am a proud veteran of the United States Marine Corps who was stationed at Cherry Point, we made eastern North Carolina our home. I am an F-35 aircraft sheet metal mechanic at FRC and my wife is a registered nurse, and we love our jobs, but enjoy spending time at home and enjoying everything this area and community has to offer. We are very family oriented and want our kids to grow up in a community that feels like family, so we are very invested in the future and well-being of this already awesome community! That being said, I would like to serve on the Sea Gate Board of Directors so that I can serve this place we call home and play a part in steering it in the right direction!
